

	frequency(Vehicle)	30 s
	frequency(Biking)	60 s
	frequency(Walking)	150 s
	frequency(Static)	210 s

Speed tendency is **up**,
using sampling frequency of the fastest
transportation mode detected

freq(V)

Speed tendency is **down**,
using the average sampling frequency of
transportation modes detected

mean(freq(V),
freq(W), freq(S))
